

AGGREGATE SOLUTIONS

Responsive, Innovative Solutions For The Aggregate Industry

Atlas Machine proudly supports the aggregate industry with unmatched repair services for large equipment. We deeply understand the challenges faced by Aggregate Industry Professionals, Plant Managers, and Maintenance Teams, which is why we offer comprehensive support across the United States and Worldwide. Whether it's **mining machinery, earthmovers, crushers, kilns, or ball mills**, Atlas is equipped to handle it all. Our expertise extends beyond **in-shop repairs**; we also provide **on-site machining services**, ensuring minimal downtime and maximum efficiency for your operations.

With over a century of experience, Atlas Machine's commitment to the aggregate industry is unparalleled. We bring a wealth of knowledge and a dedication to excellence that sets us apart. You'll often find heavy vehicle components in various states of repair on our shop floor or **crusher rolls** being meticulously undercut and welded. On-site, our team excels in repairing **rotary kilns and ball mills**, delivering reliable solutions to keep your plant running smoothly. Trust Atlas Machine for responsive, innovative repair services tailored to the unique demands of the aggregate industry.

24 HOURS PER DAY **7** DAYS PER WEEK **365** DAYS PER YEAR

Atlas understands that machines do not break down according to your schedule. That's why we are available 24/7/365. We're here when you need us most.
